# School Accountability Report Card Reported Using Data from the 2020–2021 School Year

California Department of Education

## *For YouthBuild Charter School of California*

**Address:** 155 W. Washington Blvd., Ste. 944, Los Angeles, 90015

**Phone:** 213-741-2600

**Principal:** Dr. Rudy Cuevas

**Grade Span:** 9-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### **California School Dashboard**

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

**Throughout this document the letters DPL refer to data provided by the LEA, and the letters DPC refers to data provided by the CDE.**

**Table 3: School Description and Mission Statement (School Year 2021–2022)**

YouthBuild Charter School of California (YCSC) is a project-based high school serving young people ages 16-24 who previously left or were pushed out of the traditional school system without a diploma. We have 16 school sites where we work with local YouthBuild programs to provide students with vocational training, counseling, leadership development, post-secondary readiness, and an authentic education leading to a high school diploma. In order to meet the unique needs of our students, YouthBuild Charter School of California uses a project-based, inter-disciplinary curriculum model that relies on authentic assessments and applied learning. Students are empowered to take what they learn in the classroom into their communities to promote social justice through volunteerism and advocacy.

Our mission is to cultivate collaborative learning communities in which every student has the right to an authentic education, plays a meaningful role in creating positive social change, and becomes an active participant in working towards just conditions for all. Our vision is that all young people, regardless of their circumstances, have access to an education that will prepare them to counter social inequities and realize their full potential. Our school empowers young people to transform themselves and become leaders in their communities. Our school is a haven of trust and respect, where students can prepare for success in careers, post-secondary education and life.

## **A. Conditions of Learning**

### **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

**Table 6: Teacher Preparation and Placement (School Year 2020–2021)**

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
  2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
  3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- **SARC Reporting in the 2020–2021 School Year Only**  
Where the most viable option, LEAs were required to administer the statewide summative assessments for ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:
    - Aligned with CA CCSS for ELA and mathematics;
    - Available to students in grades 3 through 8, and grade 11; and
    - Uniformly administered across a grade, grade span, school, or district to all eligible students.
  - **Options:** Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:
    - Smarter Balanced ELA and mathematics summative assessments;

- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.
- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

**Table 14: CAASPP Test Results in ELA and Mathematics for All Students  
Grades Three through Eight and Grade Eleven taking and completing a state-  
administered assessment

Subject	School 2019– 2020	School 2020– 2021	District 2019– 2020	District 2020– 2021	State 2019– 2020	State 2020– 2021
<b>English Language Arts/Literacy (grades 3-8 and 11)</b>	N/A	N/A	N/A	N/A	N/A	N/A
<b>Mathematics (grades 3-8 and 11)</b>	N/A	N/A	N/A	N/A	N/A	N/A

Note: The 2019–2020 data cells with N/A values indicate that the 2019–2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019–2020 school year.

Note: The 2020–2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020–2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020–2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020–2021 school year to other school years.

**Table 21: Career Technical Education Programs (School Year 2020–2021)**

*YouthBuild Charter School of California partners with 15 local YouthBuild programs to provide job training in construction. Students have the opportunity to learn construction skills while building affordable housing for homeless and low-income people in their communities. While at the YouthBuild program, students may earn industry-recognized construction certifications, including OSHA-10 and MC3 (Multi-Craft Core Curriculum) certifications. These certifications coupled with high school diploma position students more strongly for labor market placements than a high school diploma alone. Many YouthBuild graduates establish successful careers in construction-related and green industries. In addition, some of our YouthBuild program partners have opportunities for CTE training in healthcare, technology, and customer service fields, where students can also receive appropriate industry-recognized certifications. However, this is not a CDE-approved CTE program.*

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

**Table 24: California Physical Fitness Test Results (School Year 2020–2021)**

Note: Due to the COVID-19 crisis, the Physical Fitness Test was suspended during the 2020–2021 school year and therefore no data are reported.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

**Table 25: Opportunities for Parental Involvement (School Year 2021–2022)**

*As per LCAP requirements, YouthBuild Charter School conducts annual surveying that is inclusive of parents. On an annual basis, YouthBuild Charter makes a dedicated effort to include and value the survey responses from parents as fundamental to annual goal development. More specifically, YouthBuild Charter took formal steps to involve all stakeholders in reviewing all stakeholder survey data (including parent survey data) with all teachers, counselors, and support staff during professional development. In addition, the school's leadership team conducted a listening tour to get even more detail and specificity with regard to using all stakeholder input for subsequent goal development. Parents are frequently invited to school events and encouraged to participate in school decision-making.*

### State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

### **State Priority: School Climate**

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

**Table 29: Suspensions and Expulsions**

Note: The 2019–2020 suspensions and expulsions rate data are not comparable to other year data because the 2019–2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019–2020 school year compared to other school years.

**Table 32: School Safety Plan (School Year 2021–2022)**

At our summer 2020 virtual Professional Development, YouthBuild Charter School had a where we reviewed our school safety plan and our Covid-19 Safety Plan and Prevention Program. YouthBuild Charter staff also received updates about refining and further developing their site-specific safety plans.

The following topics were covered in detail:

- Covid-19 Safety Plan and Protocols
- Identification and support of students with mental health concerns
- Threat assessment and intervention
- Incident command
- Positive school climate

All staff, including school administrators, teachers, counselors, social workers, and any other support staff, were involved in the review of this school safety policy. ## Addendum

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC Web Application as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC Web Application. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.

\*At or above the grade-level standard in the context of the local assessment administered.

Note: LEAs/schools will populate this table for schools in cases where the school administered a local assessment.

Note: LEAs/schools will populate double dashes (--) in this table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: In cases where all the schools in this LEA administered only the CAASPP for Mathematics assessment, LEAs/schools will populate this table with "N/A" values in all cells, meaning this table is Not Applicable for this LEA.
